Recommendation

Dear Madam / Dear Sir,

Following our 10-year long collaboration, we are glad to recommend Electro Max as a trusted and proficient partner to any organization in the lighting field, either supplier, developer or end user.

OSRAM Optoelectronic have identified Electro Max as a solid and professional developer and integrator for professional solutions, bringing relevant value, innovation and reliability to multiple projects, either for general lighting (street, architectural, industrial etc.) or for specialty lighting (ATEX, obstruction, airfield, heliport).

Moreover, starting with 2011, we have an on-going co-branding agreement with Electro Max, our partner being consequently entitled to use the official "OSRAM – LED Technology Included" marking on its own products bearing OSRAM technology.

Considering our excellent cooperation and being confident in our partner's expertise and technical abilities, we strongly recommend Electro Max to any organization interested in high quality, professional and reliable lighting products.

Kind regards

OSRAM Opto Semiconductors GmbH
